The serial numbers of the vehicle (frame, engine, carburetor) should be checked prior to ordering parts for a specific unit. In cases where a part has been modified, the serial number of the vehicle bearing the modification is listed in the 'SERIAL NUMBER' column. The modification parts are controlled by each pertinent serial number below.

Engine serial number - Engine group parts (Block numbers beginning with 'E').

Carburetor identification number - Carburetor component parts.

Frame serial number - Frame group parts (Block numbers beginning with 'F').

A serial number chart and serial number locations are provided.

Note - Some models may be controlled by one serial number only.

- AREA*** - Applicable area code type is defined in the serial number chart.

- ORG*** - Manufacturing origin of the unit.

- QTY** - Quantity required per unit as specified.

A. "AR" in place of the quantity indicates AS REQUIRED.

B. "(" Parentheses in the quantity required indicate "optional".
